isomer

Editor Training

Agenda for today

- Goals
- Concepts
  - Isomer
  - Github
  - Markdown
- Work on the Goals

Goals for today

1. Edit a page on the website
2. Format content within a page
3. Add website URL to a page
4. Add images to a page
5. Add a file download link to a page
6. Add press release resource to a website

Isomer

Run websites powered by Markdown using Github

You will be learning this today!

You are here

Content Owner

GitHub

Site Content Editor

Website Hosting

Internet

You are done with the first concept!

Github

Github is tool that allows you to do version control system.
We use this to store website files in Git Repository.

1. Repository (Repo)

A repo is a folder with version control you view on Github
It is kind of like a folder on the internet for your website files.

Open a pull request
Create a new pull request by comparing changes across two branches. If you need to, you can also compare across forks.
base: master
compare: staging
Can't automatically merge. Don't worry, you can still create the pull request.
Change some text in page
Write
Preview
Leave a comment
Put in good PR title and comment to help the reviewer understand the changes more quickly
Attach files by dragging & dropping, selecting them, or pasting from the clipboard.
Styling with Markdown is supported
Create pull request
Reviewers

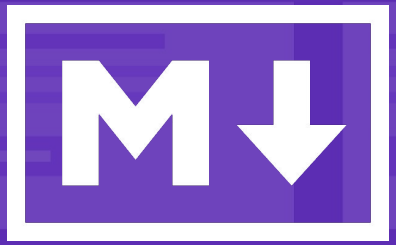
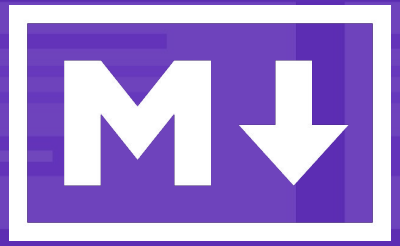
Github Demo

You are done with the second concept!



Markdown

Isomer is powered by Markdown. It is designed so that text can be easily converted to your website



Markdown Editor Demo

https://www.isomer.gov.sg/markdown-helper/

```
## **Isomer Markdown Helper**

#### Copy and paste your markdown on the left side then edit here!

---

You can write in six different font sizes:
# Header 1
## Header 2
### Header 3
#### Header 4
##### Header 5
###### Header 6

You can also **bold** and *"italicize"* words. And you can even *"combine **both** in **the same** line"*.

~~---Here's a strikethrough.---~~

#### **You can also combine bold/italics/strikethrough with headers!**

> Add blockquotes to make your text stand out

#### **Tables in markdown (for simple tables)**

| Header 1          | Header 2    | Header 3    |
|-------------------|-------------|-------------|
| Markdown tables   |             |             |
|                   | are a bit   |             |
|                   |             | trickier.   |

#### **Tables in HTML (for more tricky tables)**

I highly recommend using a table generator such as [https://www.tablesgenerator.com/html_tables](https://www.tablesgenerator.com/html_tables)

Horizontal tables
<table class="table-h">
 <tr>
  <td rowspan="3">Stuff about Singapore</td>
  <td>Singapore population size</td>
  <td>5.6 million (2016)</td>
 </tr>
 <tr>
  <td>Land mass of Singapore</td>
  <td>719.9 km$^2$</td>
 </tr>
 <tr>
```

Isomer Markdown Helper

Copy and paste your markdown on the left side then edit here!

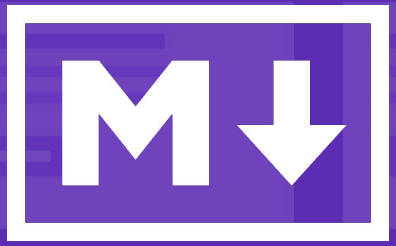
You can write in six different font sizes:

Header 1

Header 2

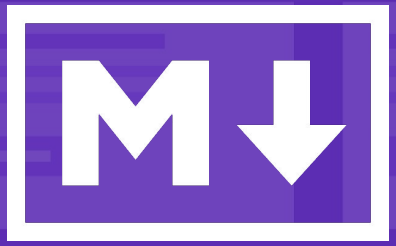
Header 3

Header 4



Share Your Markdown

Simply copy and paste your editor URL to your friends!



10 mins Hands-on

You are done with the last concept!

Time to work on the goals!

Goals for today

1. Edit a page on the website
2. Format content within a page
3. Add website URL to a page
4. Add images to a page
5. Add a file download link to a page
6. Add press release resource to a website

Goal #1 - Edit a Page

Goal #2 - Format Content

Goal #2 - Format Content

1. Go to https://www.isomer.gov.sg/markdown-helper/
2. Find the “Formatting text”
3. Copy your content from Github into the Markdown Helper
4. Start formatting
5. Copy your content back into Github once you are done
6. Commit your changes

Goal #3 - Add Website URL

Goal #3 - Add Website URL

1. Go to https://www.isomer.gov.sg/markdown-helper/
2. Find the “Adding website URL”
3. See how it is done in the Markdown Helper
4. Copy your content back into Github once you are done
5. Commit your changes

Goal #4 - Add Image

Goal #4 - Add Image

1. Go to https://www.isomer.gov.sg/markdown-helper/
2. Find the “Adding jpg, png image or gif”
3. See how it is done in the Markdown Helper
4. Copy your content back into Github once you are done
5. Commit your changes

Goal #5 - Add a Download Link

Goal #5 - Add a Document Download Link

1. Go to https://www.isomer.gov.sg/markdown-helper/
2. Find the “Adding word, pdf, excel etc. document link”
3. See how it is done in the Markdown Helper
4. Copy your content back into Github once you are done
5. Commit your changes

Final Goal - Add Press Release

Final Goal - Add Press Release

1. Visit beta.tech.gov.sg

2. Go to Media > All in the Navigation Bar

A Singapore Government Agency Website
