Default repository permission

The isomerpages organization has their default repository permission set to **read**. This means that every member of this organization has **read** access to this repository, regardless of the team and collaborator access specified below.

You can change or remove the default repository permission setting on this organization's [member privileges](#) page.

Search by username, full name or email address

You'll only be able to find a GitHub user by their email address if they've chosen to list it publicly. Otherwise, use their username instead.
