@@ -9,6 +9,8 @@ Our team decided to go with Markdown (.md) - more human readable syntax - so

9 While Markdown is appropriate for writing long segments of text, it alone does not allow users to edit small details of the website (e.g. change the hero-banner image) without diving into the HTML.

10

11 We therefore chose to supplement the Markdown syntax with YAML (.yaml) - yet another human readable syntax.

12
